USA Dance has grown from only hundreds of members and a handful of chapters focused mainly on the east coast to 150 chapters and nearly 20,000 members across the country. There has been a virtual explosion of interest in all forms of dance, particularly among younger dancers who focus on DanceSport, the competitive side of dancing. The number of dancers registered in student and minor categories has grown from less than 200 in 1990 to nearly 4,000.

USA DANCE Chapters provide affordable recreational dance and DanceSport opportunities to the public and promote the health and social benefits of dancing in communities across the country. A special welcome is extended to new dancers and they are encouraged and helped to get started. Special efforts are made to promote DanceSport in colleges, high schools and primary schools, as well as among recreational dancers of all ages.

USA Dance membership figures are only a measure of dancers who support our national organization. It is estimated we touch five times our membership numbers on a monthly basis since all of those who attend USA Dance events are not necessarily members.
